

Finally, A Smarter Way to Wi-Fi

EnMesh™ Whole-Home Wi-Fi System

Wi-Fi in Every Corner

Eliminate dead spots & weak signals

- True Mesh Link ensures Wi-Fi a single router's reach
- Detects the best connection quality, fastest path
- Blankets the home or small office for full coverage

Live Buffer-Free

Enjoy high-performance Wi-Fi speeds

- Smooth, video/audio in every room and beyond
- Fast AC1200 speeds you need where it's needed
- Create a single mesh network

Wi-Fi Simplified

No running wires. No software to setup.

- Connect to existing modem or modem/router
- Step-by-step setup via the EnMesh Mobile App
- Place pods where needed, let Smart Link auto-connect them

Add Personal Cloud Storage

- Access, upload & share files wherever you go
- Connect a USB storage device
- Use with the EnFile™ Mobile App

Setup With Ease

With just a few simple steps you'll be connected and ready to watch, listen, or work.

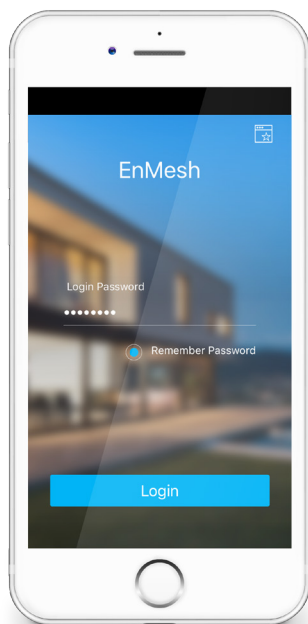

Monitor Your Mesh

Speed-test your Internet connection, see all your connected devices and monitor the link quality of each mesh router pod.

Share on Your Terms

Securely share your Wi-Fi access with company, or create a separate guest network just for them.

Parents Are in Control

Easily manage family access, schedule on and off times or pause Wi-Fi. Block specific websites and filter by keywords.

Secure Auto-Updates

Keep your network and system current and secure with automatic software updates.

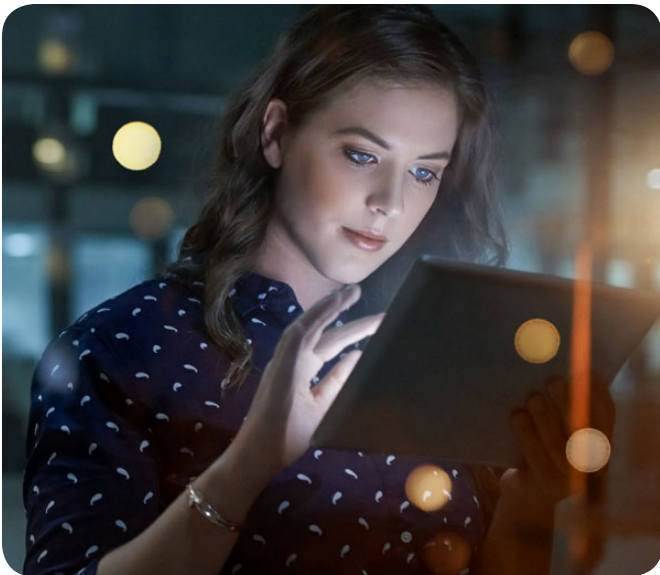

One-Touch Troubleshooting

Monitor and fix detected network issues with one-touch troubleshooting and system recovery.

Prioritize Devices

Ensure your streaming devices, like smart TVs get the priority and bandwidth needed on busy networks to prevent buffering and network lag.

Love Your Wi-Fi Again

The Problem: Outdated Technology is Limiting

The outdated single-router solution limits wireless range, while the router to repeater scenario limits your access speed.

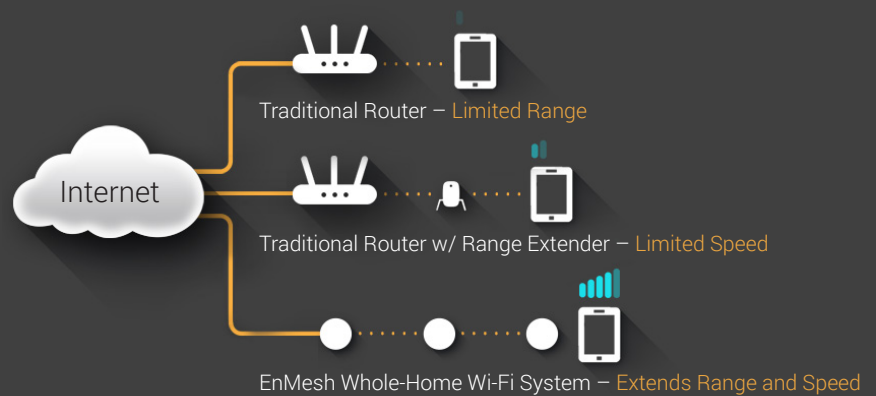

The Solution:

A Whole-Home Wi-Fi System

A Smarter Way to Wi-Fi

A True Mesh Link network spreads out each connection, ensuring Wi-Fi beyond the reach of a single router's signal.

- Mesh pods intelligently "talk" to neighboring pods
- Smart sensors scan for best connection & fast path
- Advanced mesh algorithm self-heals network issues

Bringing Business-Class Wi-Fi Home

Engineered to perform using best-in-class, business-grade wireless technology adapted specifically for the home.

- 802.11ac Dual-Radio (2.4 GHz & 5 GHz)
- AC1200 Speeds (867 Mbps + 300 Mbps)
- Dual-Gigabit Ethernet Ports (WAN/LAN)
- Single USB 2.0 Port

*Sleek, Stylish Design
blends discretely into your home.*

- Setup via EnMesh Mobile App & Bluetooth®
- Full Network Insight, Control & Troubleshooting
- Standards-Based Security; Auto-Updates

Features and performance may vary depending on the system configuration, settings, network conditions and environmental factors. EnGenius reserves all rights to amend any features, errors, inaccuracies, or omissions and to change or update information at any time, without prior notice
